

# Women++: Increasing diversity in technology

# Founded in September 2017, with the mission:

The purpose of the Association, a non-profit organization, is:

- a) **organizing educational, tech-related and networking events** with the goal of women empowerment;
- b) **increasing the number of women working in the tech sector** via promotion of STEM-related fields among its target group of individuals, **providing role models**, and **creating a safe and supportive environment fostering collaborations**, entrepreneurship and innovation;
- c) **promoting talented women in tech**, and collaborating with companies/ universities/organizations/other legal entities, which are invested in gender diversity.
